**Re: Further Amendment to Petition for Rule Making
Station KOCO-DT, Oklahoma City, Oklahoma**

Dear Ms. Salas:

Transmitted herewith on behalf of Ohio/Oklahoma Hearst-Argyle Television, Inc., licensee of Television Station KOCO-TV, Oklahoma City, Oklahoma and permittee of Digital Television Station KOCO-DT, are an original and four copies of a Further Amendment to Petition for Rule Making requesting amendment of the DTV Table of Allotments, Section 73.622(b) of the Commission's Rules.

If any questions should arise during the course of your consideration of this matter, it is respectfully requested that you communicate with this office.

Sincerely,

Coe W. Ramsey

FURTHER AMENDMENT TO PETITION FOR RULE MAKING

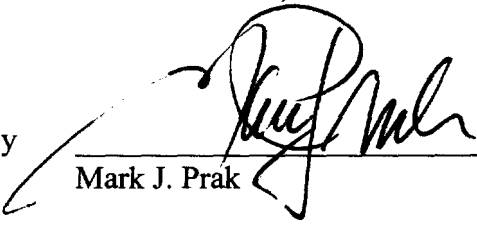

On February 22, 1999, Ohio/Oklahoma Hearst-Argyle Television, Inc. ("Petitioner"), licensee of Television Station KOCO-TV, Oklahoma City, Oklahoma, filed a Petition for Rule Making ("Petition") requesting the Commission to amend Petitioner's Digital Television Station ("DTV") channel allotment from Channel 16 to Channel 7.

Attached hereto is a Supplemental Amended Engineering Statement prepared by Bernard R. Segal, P.E. In response to informal advice from the FCC's staff, the instant amendment amends the maximum effective radiated power of the proposal to 24 kW. There is no other change to the proposal. Petitioner respectfully requests that the Commission incorporate this amendment into its consideration of the Petition.

Respectfully submitted,

OHIO/OKLAHOMA HEARST-ARGYLE
TELEVISION, INC.

This, the 19th day of March, 2001.

SUPPLEMENTAL AMENDED ENGINEERING STATEMENT
PREPARED ON BEHALF OF
OHIO/OKLAHOMA HEARST-ARGYLE TELEVISION, INC.
OKLAHOMA CITY, OKLAHOMA

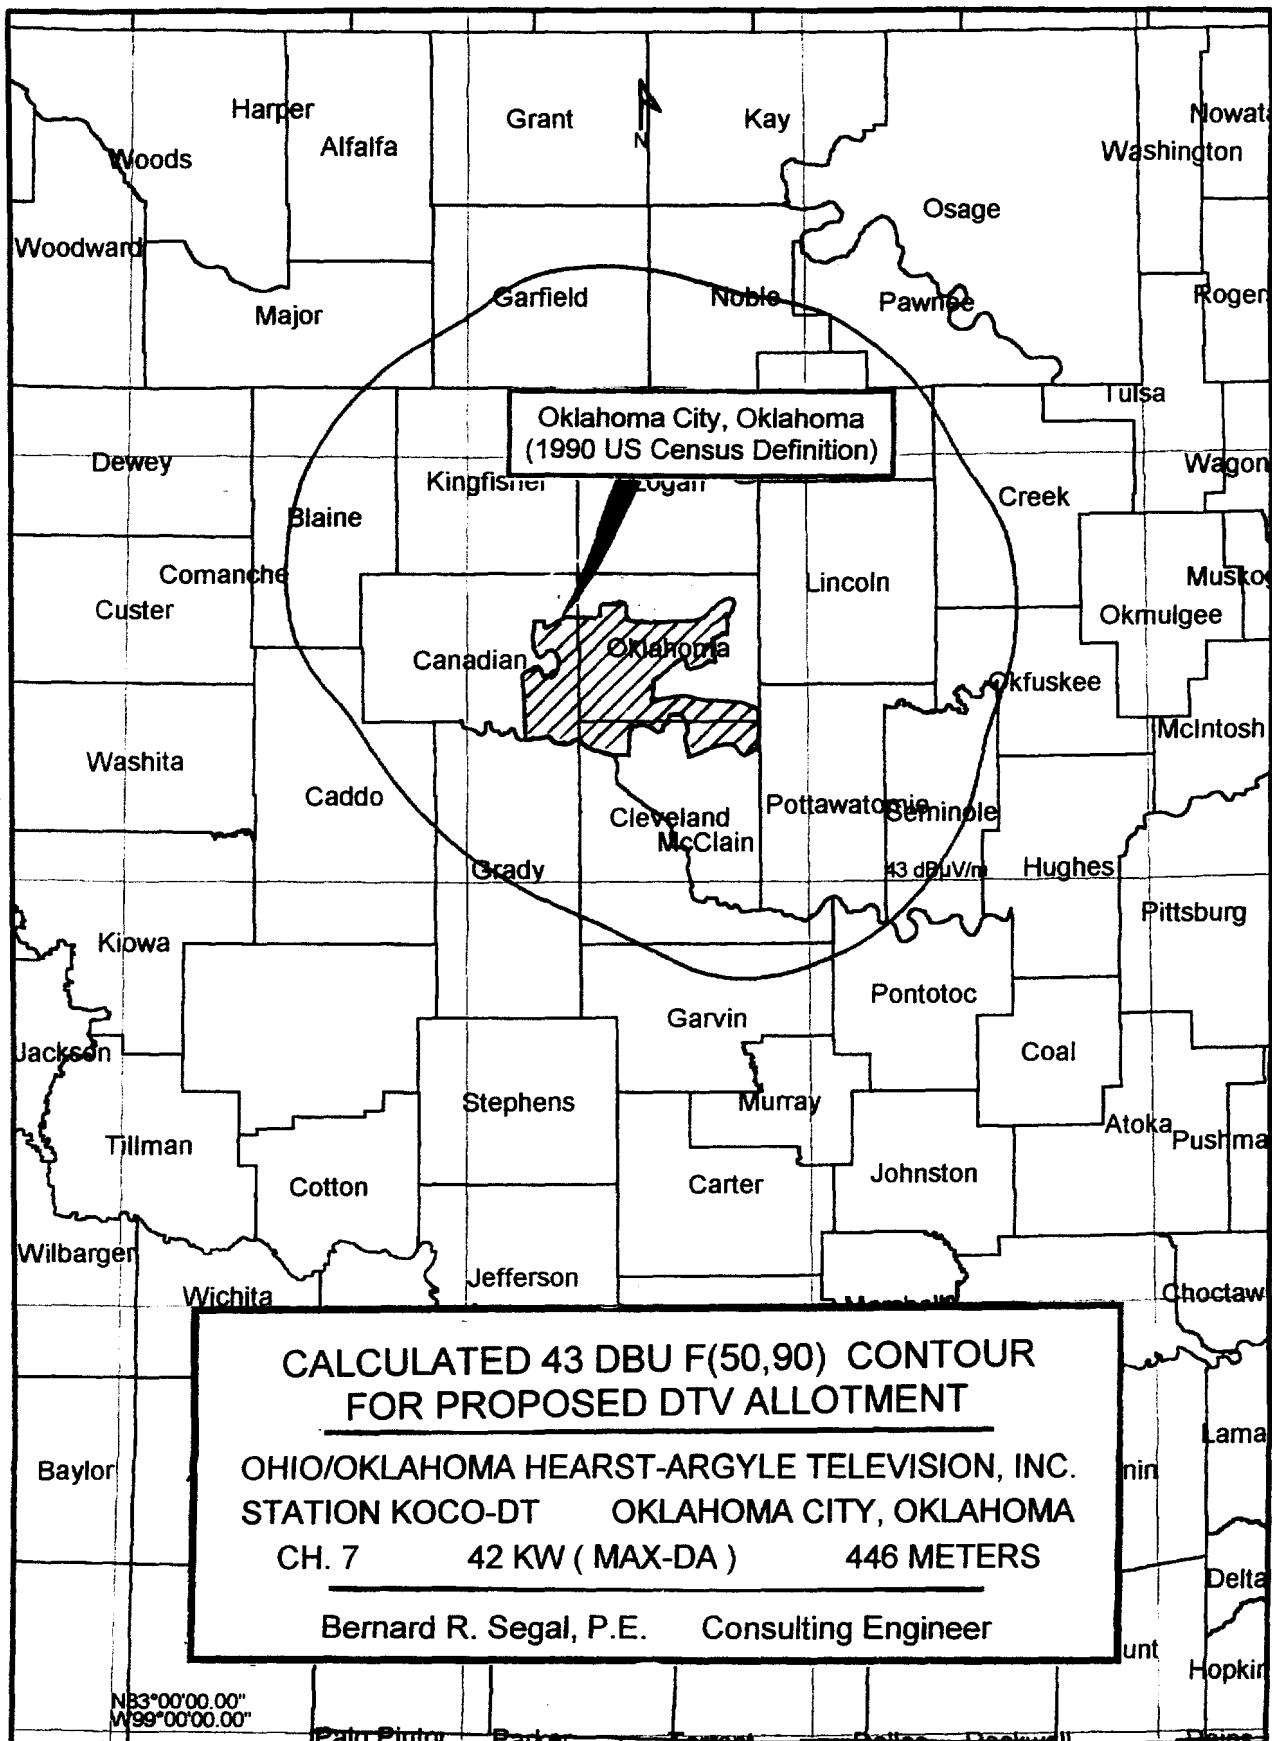

Ohio/Oklahoma Hearst-Argyle Television, Inc. is the petitioner in MM Docket No. 99-297, RM-9726 for the substitution of Channel 7 for Channel 16 at Oklahoma City, Oklahoma, in the DTV Table of Allotments, Section 73.622(b) of the Commission's Rules. The instant Supplemental Amended Engineering Statement is supplied in response to informal advice from the FCC that due to the implementation of a new computer program, the previously determined satisfactory level of maximum effective radiated power of 45 kW is now deemed to be excessive. Accordingly, the maximum effective radiated power is amended to 42 kW. No other change in the proposal is involved.

The minor change in maximum effective radiated power does not alter the conclusion that the principal community, Oklahoma City, will be encompassed by the 41 dBu, F(50,90) contour. However, since the commencement of the instant rulemaking proceeding, the FCC has established a new principal city coverage requirement. For a VHF Channel 7 facility, the 43 dBu, F(50,90) contour must encompass the principal community. The accompanying map, which is based on the proposal as now amended, demonstrates compliance with the new principal city coverage requirement. The accompanying tabulation provides the data used to determine the distances to the aforementioned contour.

I declare under penalty of perjury that the foregoing is true and correct. Executed on March 8, 2001.

Bernard R. Segal, P.E.
